Thomas, my friend, where can we download Windows7 PKEY Driver, please download here thanks BR. ... if you want to use jaf, use the pkey emulator, download it here and then just paste the pkey into jaf. I think you can use JAF-PKEY-Runtime I'm trying to install Windows 7 on my computer, but it can't find the drivers. I have searched several threads here, but the solutions did not work as I have installed the drivers, but Windows still cannot find them. I tried this, I inserted a cd disk containing the drivers, then I restarted the computer, but it can't find the drivers. I also tried using the dvd-ROM, but nothing works.
