Character Management Options: - A Comprehensive Level-Up System to Obtain Powerful Equipment As you level up, a wealth of powerful and rare equipment awaits you. Equip them with a unique set of equipment that's effective for different characters and different combat situations. - A Multitude of Equipped Weapons Equip weapons, armor, and magic that can be freely combined with each other. You can freely change your equipped weapons and armor, depending on the situation. - Many Unique Abilities As you progress through the story, you'll obtain many unique abilities that use powerful and rare items from the equipment. There are abilities that allow you to learn new spells, improve the effects of your existing spells, turn your character into a running monster, turn your character into a flying monster, or even modify the appearance of your character. - The Asynchronous Adventure Continues After You've Left the Game After you leave the game, the Adventure Continues where the ideas of the characters intersect and converge. You can continue on the adventure by visiting the area where you left off. - Powerful Monsters to Obtain Rare Items The Player's own status along with their unique equipment and abilities, as well as the unique items and skills that have been included in the world, all combine to increase the excitement and challenge of the game. ENJOY PLAYING A VAST WORLD FULL OF EXCITEMENT. User Reviews / Testimonials » KITCHOB | Nov 16, 2018 - Nikio.io is my favorite developer not only because they are this friendly guy who makes really cool stuff, but they made an incredible D&D inspired game that didn't actually look like they took inspiration from any D&D. Now, they released Sanguine in the same style and they make this game even better. - I haven't played the original Sanguine, but they've updated it with a better interface and way better graphics that looks like they took inspiration from the Fallout style of game. » IGorytelly | Nov 12, 2018 - I am fan of Nikio and his D&D games, therefore I like the new game. I am not sure about the music, but the art direction and the progression feels good. • Sanguine takes a different approach to the series, and changes the idea of fantasy RPG. • Sanguine uses the same method as other Nikio games, using

2011-02-15T06:06:00Z2012-02-14T00:22:54ZIsujei's Player's Guide for Vol. I&oqgdcB7-Q1-h-i-rThe Overview: Attribute Points

Although an Attribute Point system is often, and quite correctly, mentioned as an optional optional optional system, it's present in every edition. This system allows you to track and balance your character's strengths and weaknesses, which makes each character's growth and development much more precisely controlled. For example, a Fighter could have points in his attributes of Strength, Dexterity, Reflex, Will, or Intelligence, and could allocate them between them as he wishes, often disregarding the principle of "divide and conquer," since a fighter doesn't have to allocate all points to a single attribute or to beat a monster in order for the fight to be seen as a victory. An idealist can often be chased down by a red-hot poker with good reflexes and initiative, but not necessarily enough Strength and Will to survive. In contrast, a lazy goblin whose only contribution to combat is to be entirely passive can be utterly defeated by a Ranger with enough Dexterity and Reflex to focus her efforts on them.

Fugue is a game which is especially suited to this system and even more so if, as in our Pathfinder campaign, you are using
