I have to make the popup box when the user clicks on

the link on the webpage. I have to add the html code or something like that. The link is already there on the webpage. A: If you just want to open a dialog, you can use `openMsgDialog()`, that is part of JavaWS-MIDlet. you just have to decorate your webpart with one or several This way any application that calls "`showLoginDialog()`" on that webpart will have the dialog opened.
